Rustic Wood Fireplace Mantel Shelf

Naturewoods rustic wood mantels are a unique combination of a natural log and timber mantel design. Many of these originate from having a previous life in an old barn or vintage timber building, many from 125-165 year old log cabin/structures.

This rustic wood mantel design features a handcrafted, rustic round front profile similar to a log mantle. The top of these Naturewoods mantels are made to have a flat, surfaced smooth shelf, which provides a beautiful fireplace mantel shelf design. The bottom surfaces of this mantle design can feature hand hewn texture or smooth. Vintage antique hand tools like drawknives, chisels, scribes and more are still used to craft these solid wood mantels.

You can use these rustic mantel designs for:

- Corner fireplace mantels
- Custom wood fireplace mantels
- Wood stove or pellet stove mantel shelves
- As a Rustic mantle for gas or wood fireplaces
- Electric fireplaces
- As a Wood mantel for a basement fireplace

This mantle design is perfect for any fireplace, especially in a lower ceiling area, even like a basement or a corner fireplace setting. Custom heights and depths are always available. Some even enhance their interiors by using these as a rustic wall shelf for displaying your antiques, family treasures, prized trophies, and more!
